

# Course Announcement

## Reducing Wildfire Risk in the Home Ignition Zone

### DESCRIPTION:

This 2-day course is designed for community members and fire professionals interested in wildfire risk reduction actions property owners can implement to improve home survivability due to a wildland fire threat.

The course will include information on the fundamentals of wildland fire behavior; potential types of ignition sources; the Home Ignition Zone; recommendations for wildfire risk reduction actions; case studies of Wildland Urban Interface fires; National Fire Protection Association Firewise® and the Firewise USA™ recognition program.

There will be a mix of classroom based presentations and field practice with property site visits. Please dress appropriately for weather conditions with pants and closed toe shoes for the property walk-throughs.

Participants will be required to come eager to learn and must attend the full course to receive a Certificate of Course Completion.
